Dear Mr. Gamster,

Rich and I would like to thank you for providing excellent services on installing and redesigning our sprinkler system.

Special thanks to Michael and his team for working and ensuring that our new landscaping was well watered and that we have the correct coverage.

Dennis was very informative during the initial meeting and was correct with on the needed changes.

Lance, we would like to thank you for arranging all of this and as you know we had a very short timeline due to circumstances that was not under our control.

DRF's entire team provided what we consider professional and very client oriented services.

Sincerely yours,

Rich and Janet Coffey
