Re: Office Park of Hinsdale
Irrigation System

Dear Dennis:

On behalf of ownership, I would like to thank DRF Plumbing for the superior job you did recently with the addition of an irrigation and iron rust filtration system for the Office Park of Hinsdale. With a 9 building facility located on 34 acres, DRF Plumbing was the right choice when selecting a company to get this job done right, on time and well under budget.

I would also like to personally commend you and your staff for being professional, cooperative and your attention to detail throughout the project. I look forward to working with you again in the future.

Sincerely,

Jill Przybylinski, RPA
General Manager
